<b>150121</b>	<b>Triax RG6 Coax Cable CCS PVC Koka 6 White 100m Drum</b>	<b>Brand:</b> Triax
	<p>Triax KOKA 6 PVC type is a premium cable for indoor installations. The wide frequency range allows the cable to carry signals for both television, radio, satellite receivers etc. whether the signal comes from satellite, terrestrial antenna or cable-tv.</p> <p>This cable is designed with a center conductor of bare copper (Cu) which offers high performance over long distances. Due to the gas injected foam, which is far superior to the chemical foam, the copper conductor carries the signals without great losses. A good quality conductor and appropriate gas injected dielectric grants velocity ratio higher than 80%.</p> <p><b>Size:</b> 100M      <b>Remarks:</b> Cu 1.02</p>
