Hospitality in touch with your business

TRIAX® In Touch is the online concierge platform accessible from anywhere, keeping guests happy before, during and after their stay. A customisable suite of apps offers personalised hospitality services and local information. This improved, direct guest communication maximises hotels' opportunities to increase RevPaR (revenue per available room).

5 STAR HOSPITALITY SOLUTION FOR HOTELS

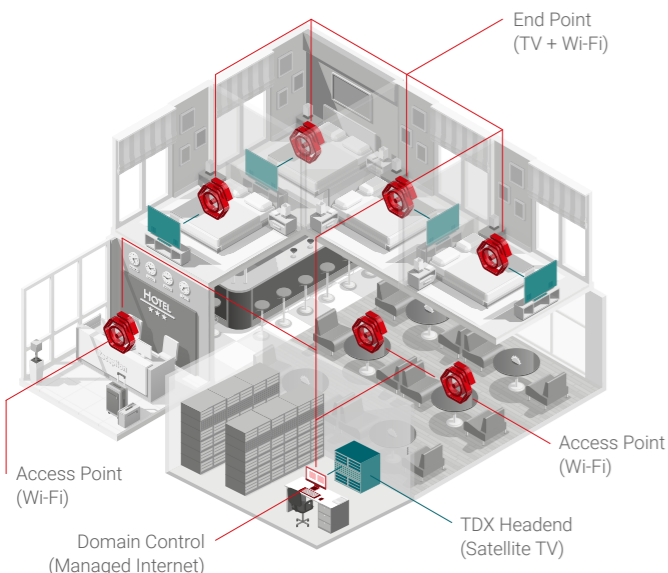

TV delivered your way with TRIAX headends

Our revolutionary headend platform is the easy way to send the content you want from any available source across the hotel. The plug & play modules are simple to install, adapt and configure, supporting the latest technologies and industry standards.

Reliable Wi-Fi with ethernet over coax

Bad Wi-Fi is every guest's nightmare. It makes them leave bad online reviews – every hotel's nightmare. Let nightmares be a thing of the past: our ethernet over coax delivers reliable internet to every room using existing coax cables, distributed through our safe and billable Wi-Fi solution.

The hotel business is all about being in touch. We help hotels stay in touch with their guests via an easy, accessible platform backed up with exceptional hardware and support.

We help create the happy hotel.

With TRIAX® In Touch you can provide personal experiences that create value for all of us. Our 5 star hospitality solutions for 3 star hotels are a hospitable combination of key components: our well-known reliability, a valuable understanding of your business, an innovative mindset, and, of course, future-proof technology.

Tailor personal experiences and happy hotels with our 5 star hospitality solutions that cover a wide range of hardware and software, focusing on the following 4 areas:

TRIAX IN TOUCH

The online concierge platform delivering hospitality and location based services, however the guest pleases.

ETHERNET OVER COAX + WI-FI

Fast internet over a reliable connection. It won't let you down, so you won't let your guests down.

TV HEADEND

High quality terrestrial, satellite and cable signals, sent straight to the guest TV from our ultra flexible headend.
