Enterprise-grade network and WiFi

Using existing coax installations

Bad WiFi is every guest's nightmare. It makes them leave bad online reviews – every hotel's nightmare.

Let nightmares be a thing of the past: we deliver reliable internet to every room, using the TV cables you already have.

Coverage is complete across your establishment and no rooms are out of action during installation.

TRIAx Ethernet over Coax + WiFi won't let you down, so you won't let your customers down.

TRIAX

connecting the future

- Reliable low latency 1 Gbps network
- IPTV ready

Innovative and Reliable

- Designed and produced by TRIAX in Denmark
- 70 years of engineering expertise

triaux.com/wifi

Excellent WiFi, Reliable networking

Simple, fast and secure setup

You already have the TV cables. All that's needed is one Controller to handle the data flow, and End Points installed across the hotel.

Alongside fast and reliable WiFi, the G.hn wave 2 technology delivers a fully managed network that guest and private devices can access separately, securely and quickly.

TRIAX
connecting the future

Coverage where you need it most

With TRIAX, a reliable WiFi signal extends to every corner of the hotel.

An endpoint in every room is simple, low-cost and quick to install, and won't interfere with TV signals.

No more WiFi nightmares.
