

Promote, anywhere

...at your fingertips

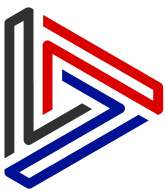

Promote, inspire and inform.

Capture your guests' attention, in the right place at the right time.

Digital Signage gives you the opportunity to display your scheduled promotions and information in the most visible areas of the hotel.

-  Professional all-in-one solution, works with any screen
-  Versatile, unlimited content editing and scheduling
-  Simple, remote administration from any device

DIGITAL SIGN

signage solutions for any screen

The right place

Schedule your images and videos into playlists, capturing your guests attention at ideal locations around your premises such as the lobby, lift, entrance and walkways.

Manage digital signs yourself or use our team for the complete package, expandable and modular; Your choice. Your way. Your display

From 1 to over 100 digital signs, all your locations, controlled from the digital cloud.

The right time

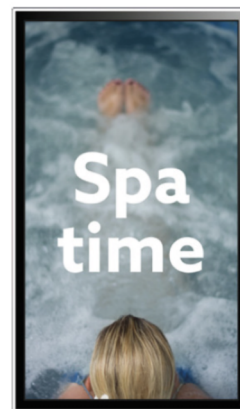

Automatically schedule your promotional messaging to suit the time of day for maximum response and reaction.

Just set up once and let Digital Sign do the rest – playlists can be set to recur as and when you please.

Sign of the times

Not everyone needs to invest in high-end, SoC digital signage displays. Naturally, our system works with these too, but we're here to help you keep your outlay to a minimum.

Our simple, compact and robust DS-Player tucks discreetly behind any standard TV or monitor to turn it into a fully functioning, remotely managed and monitored digital sign.

Each display works individually or as part of a group, so you have complete control over your content, wherever you are.

Our portal access is cloud based so you can manage your signage from anywhere.
