# New CAST-400!

Reference 8476

**CAST-400:** the new updated Chromecast unit with Google TV and CastLock system to protect from theft and tampering.

CAST-400 manages the apps and secures pairing of the guest personal device with the TV set in the room.

CAST-400 allows the guest to send multimedia content from their own device to the in-room TV ensuring a safe and private experience.

## Google v4 Chromecast

- Google v4 Chromecast
- Securely attached to TVs of any kind

## CastLock

- Protects Chromecast from theft and tampering
- Chromecast unit locked inside the CastLock
- CastLock secured to the TV with a wire

*Google Chromecast is a trademark of Google LLC.*

# CAST-400

Ref. 8476

# 02 How does it work?

# All it takes is 3 simple steps for the guest

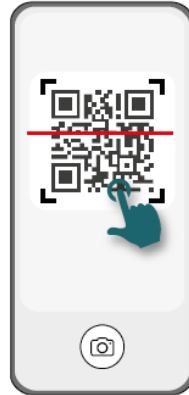

1

**Connect to  
hotel WiFi**

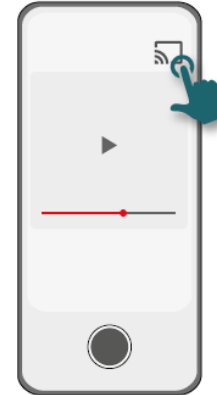

2

**Scan the on-screen  
QR code**

3

**Open app and  
Enjoy**

NOTE: The casting unit is plugged into the HDMI port on the TV sets.  
Therefore, the "source" button on the remote needs to be used to change input to the correct HDMI port.
